(c) Solution for pollution.

- Q. 1 (B) Rewrite the following passage in about one third of the original length and give a suitable title. 10**

There are hundreds of superstitions which survive in various parts of the country, and the story of them is rather amusing. We are told, for example, that it is unlucky to point to the new moon or to look at it through glass, but if we bow nine times to it we shall have a lucky month.

Now suppose you tell a scientist that you believe a certain superstition- let us say, that the howling of a dog is a sign of death. The scientist will immediately require evidence before he can accept your belief. He will want figures to prove it. It will be useless to quote two or three cases; he will want hundreds. He will want also to know (a) if it ever happens that the howling of dogs is not followed by a death, (b) if ever a person's death is predicted by the howling of dogs. The answer to the former question is in the affirmative, and to the latter in the negative. Your superstition will

not bear investigation. It may impress an ignorant person; but it cannot face the light of facts. Your case would not carry conviction in a court of law.

Apart from this process of testing by results, any intelligent man will want to know the "reason why". What connection can there be between a howling of a dog and an approaching death? Can it be cause and effect? Can it be that the dog has a gift of foreseeing such events? Or is the dog the instrument employed by some uncanny power that moves invisibly in our mind?

Q. 3 (A) Translate the following passage into Gujarati.

10

Never tell yourselves or others that you are weak. Do good if you can, but do not injure the world. You know in your inmost heart that many of your limited ideas, this humbling of yourself and praying and weeping to imaginary beings are superstitions. Tell me one case where these prayers have been answered. All the answers that came were from your own hearts. You know there are no ghosts, but no sooner are you in the dark than you feel a little creepy sensation. That is so because in our childhood we have had all these fearful ideas put into our heads. But do not teach these things to others through fear of society and public opinion, through fear of incurring the hatred of friends, or for fear of losing cherished superstitions. Be masters of all these. What is there to be taught more in religion than the oneness of the universe and faith in one's self?

- Swami Vivekananda

સમસ્યાના સમાધાનની શોધમાં થતાં યુદ્ધ વધુ મોટી સમસ્યાઓને નોતરે છે. વિશ્વ અગણિત યુદ્ધોનું સાક્ષી બનતું આવ્યું છે. એક યુદ્ધ અસંખ્ય લોકોની જિંદગીમાં વિનાશકારી અસરો ઉભી કરી દે છે. માણસજાતે યુદ્ધથી થતાં લાભની સરખામણીએ ઘણું બધું ગુમાવ્યું છે. જે વ્યક્તિ કશુંક ગુમાવે છે તે આજીવન તેના દુખમાં વિતાવે છે. કોઈ યુદ્ધનું પરિણામ સર્જનાત્મક હોતું નથી. વિનાશ, ત્રાસદી અને આપત્તજનોના મૃત્યુ યુદ્ધનું વરવું સ્વરૂપ છે. આવનારી સમસ્યાના નિરાકરણ માટે લડાતા યુદ્ધો અનેક વધુ વિકરાળ સમસ્યાઓ સામે માણસજાતને ખડી કરી દે છે. યુદ્ધની રમણીય ગાથાઓ પાછળ અનેક કરૂણ ગાથાઓ દુસકાં ભરતી હોય છે.
